Gwadar

Gwadar is a natural deep sea port city strategically located in the Arabian Sea at the opening of the Strait of Hormuz and is the heart beat of the \$62 Billion China Pakistan Economic Corridor.

The port has been leased to China Overseas Port Holding Company, a Chinese state-owned port operator for a term of 40 years and is being redeveloped under the economic model of Shenzhen in China. In 1979 Shenzhen was a market town of 30,000 people and through economic development and the establishment of the city as a Special Economic Zone, Shenzhen became the fastest growing city in the world, averaging a growth rate of 40% per annum in the 80's and 90's. Today Shenzhen is the 4th largest city in China and an economic powerhouse with a GDP in excess of \$294 billion.

Construction began in June 2016 on the Gwadar Special Economic Zone, which is being built on a 2,292 acre site adjacent to Gwadar's port. The swathe of land was handed to China in November 2015 as part of a 43-year lease.

“China plan to spend \$4.5 billion on roads, power, hotels and other utilities for the industrial zone as well as other projects in Gwadar.”

Zhang Baozhong Chairman of China Overseas Port Holding Company

瓜达尔

瓜达尔为一天然深水港口城市，其位于阿拉伯海的霍尔木兹海峡口，且是620亿美元中巴经济走廊计划的核心地带。此港口的40年经营权已租给中国国有的中国海外港口控股公司，并将以中国深圳为模板进行再建设。1979年前，深圳仅是一个拥有30,000人口的小城。然而在经济特区的规划下，深圳成为80至90年代发展最快速的都市之一，其成长速度更是高达年平均40%。现今深圳作为中国第四大城市，其经济地位不可抹灭，并每年为中国挹注2,940亿美元的国内生产总值。

邻近瓜达尔港的瓜达尔经济特区占地2,292英亩，并已于2016年6月动工。作为43年租赁合约的一部分，这块土地已于2015年11月交给中国。中国计划投资超过45亿美元在经济特区内的道路、电力、旅馆、基础建设和其他瓜达尔市内的计划。

One Belt and One Road Initiative (OBOR)

“One Belt One Road: \$2.5 trillion of trade annually · \$8 trillion of utilities · \$4 trillion of investment.”

一条皮带单程: 每年2.5 美元的贸易 · 8美元的
基础设施 · 4美元的投资。

Dubbed the ‘Project of the Century’ and the world’s biggest utilities project, the ‘One Belt and One Road Initiative’ (OBOR) will deliver a reinvigorated and modernised Silk Road, reconnecting countries and continents.

The impressive investment program estimated at \$5 trillion, is focussed on strengthening utilities across 52 countries spanning Asia, the Middle East, Europe, and Africa. By increasing connectivity between the Asian, European and African continents, OBOR will enhance trade flows for China and spur long-term regional economic growth and development, benefiting all those involved.

Nearly \$500 billion worth of projects and Merger and Acquisition deals were announced in 2016 across seven utilities sectors including telecoms.

The flagship projects include:

- The \$46 billion ‘China-Pakistan Economic corridor’, which will directly benefit Gwadar and is expected to vastly improve Pakistan’s economy and connectivity in South Asia.
- A 3,000km high-speed railway connecting China and Singapore.
- Gas pipelines across central Asia.

OBOR has entered countries as far as New Zealand, Britain and even the Arctic. By 2019, Britain will have its very own Asian Business Port in the Royal Albert Dock in London, which is being developed by the Chinese to boost trade between the UK and China.

一带一路倡议

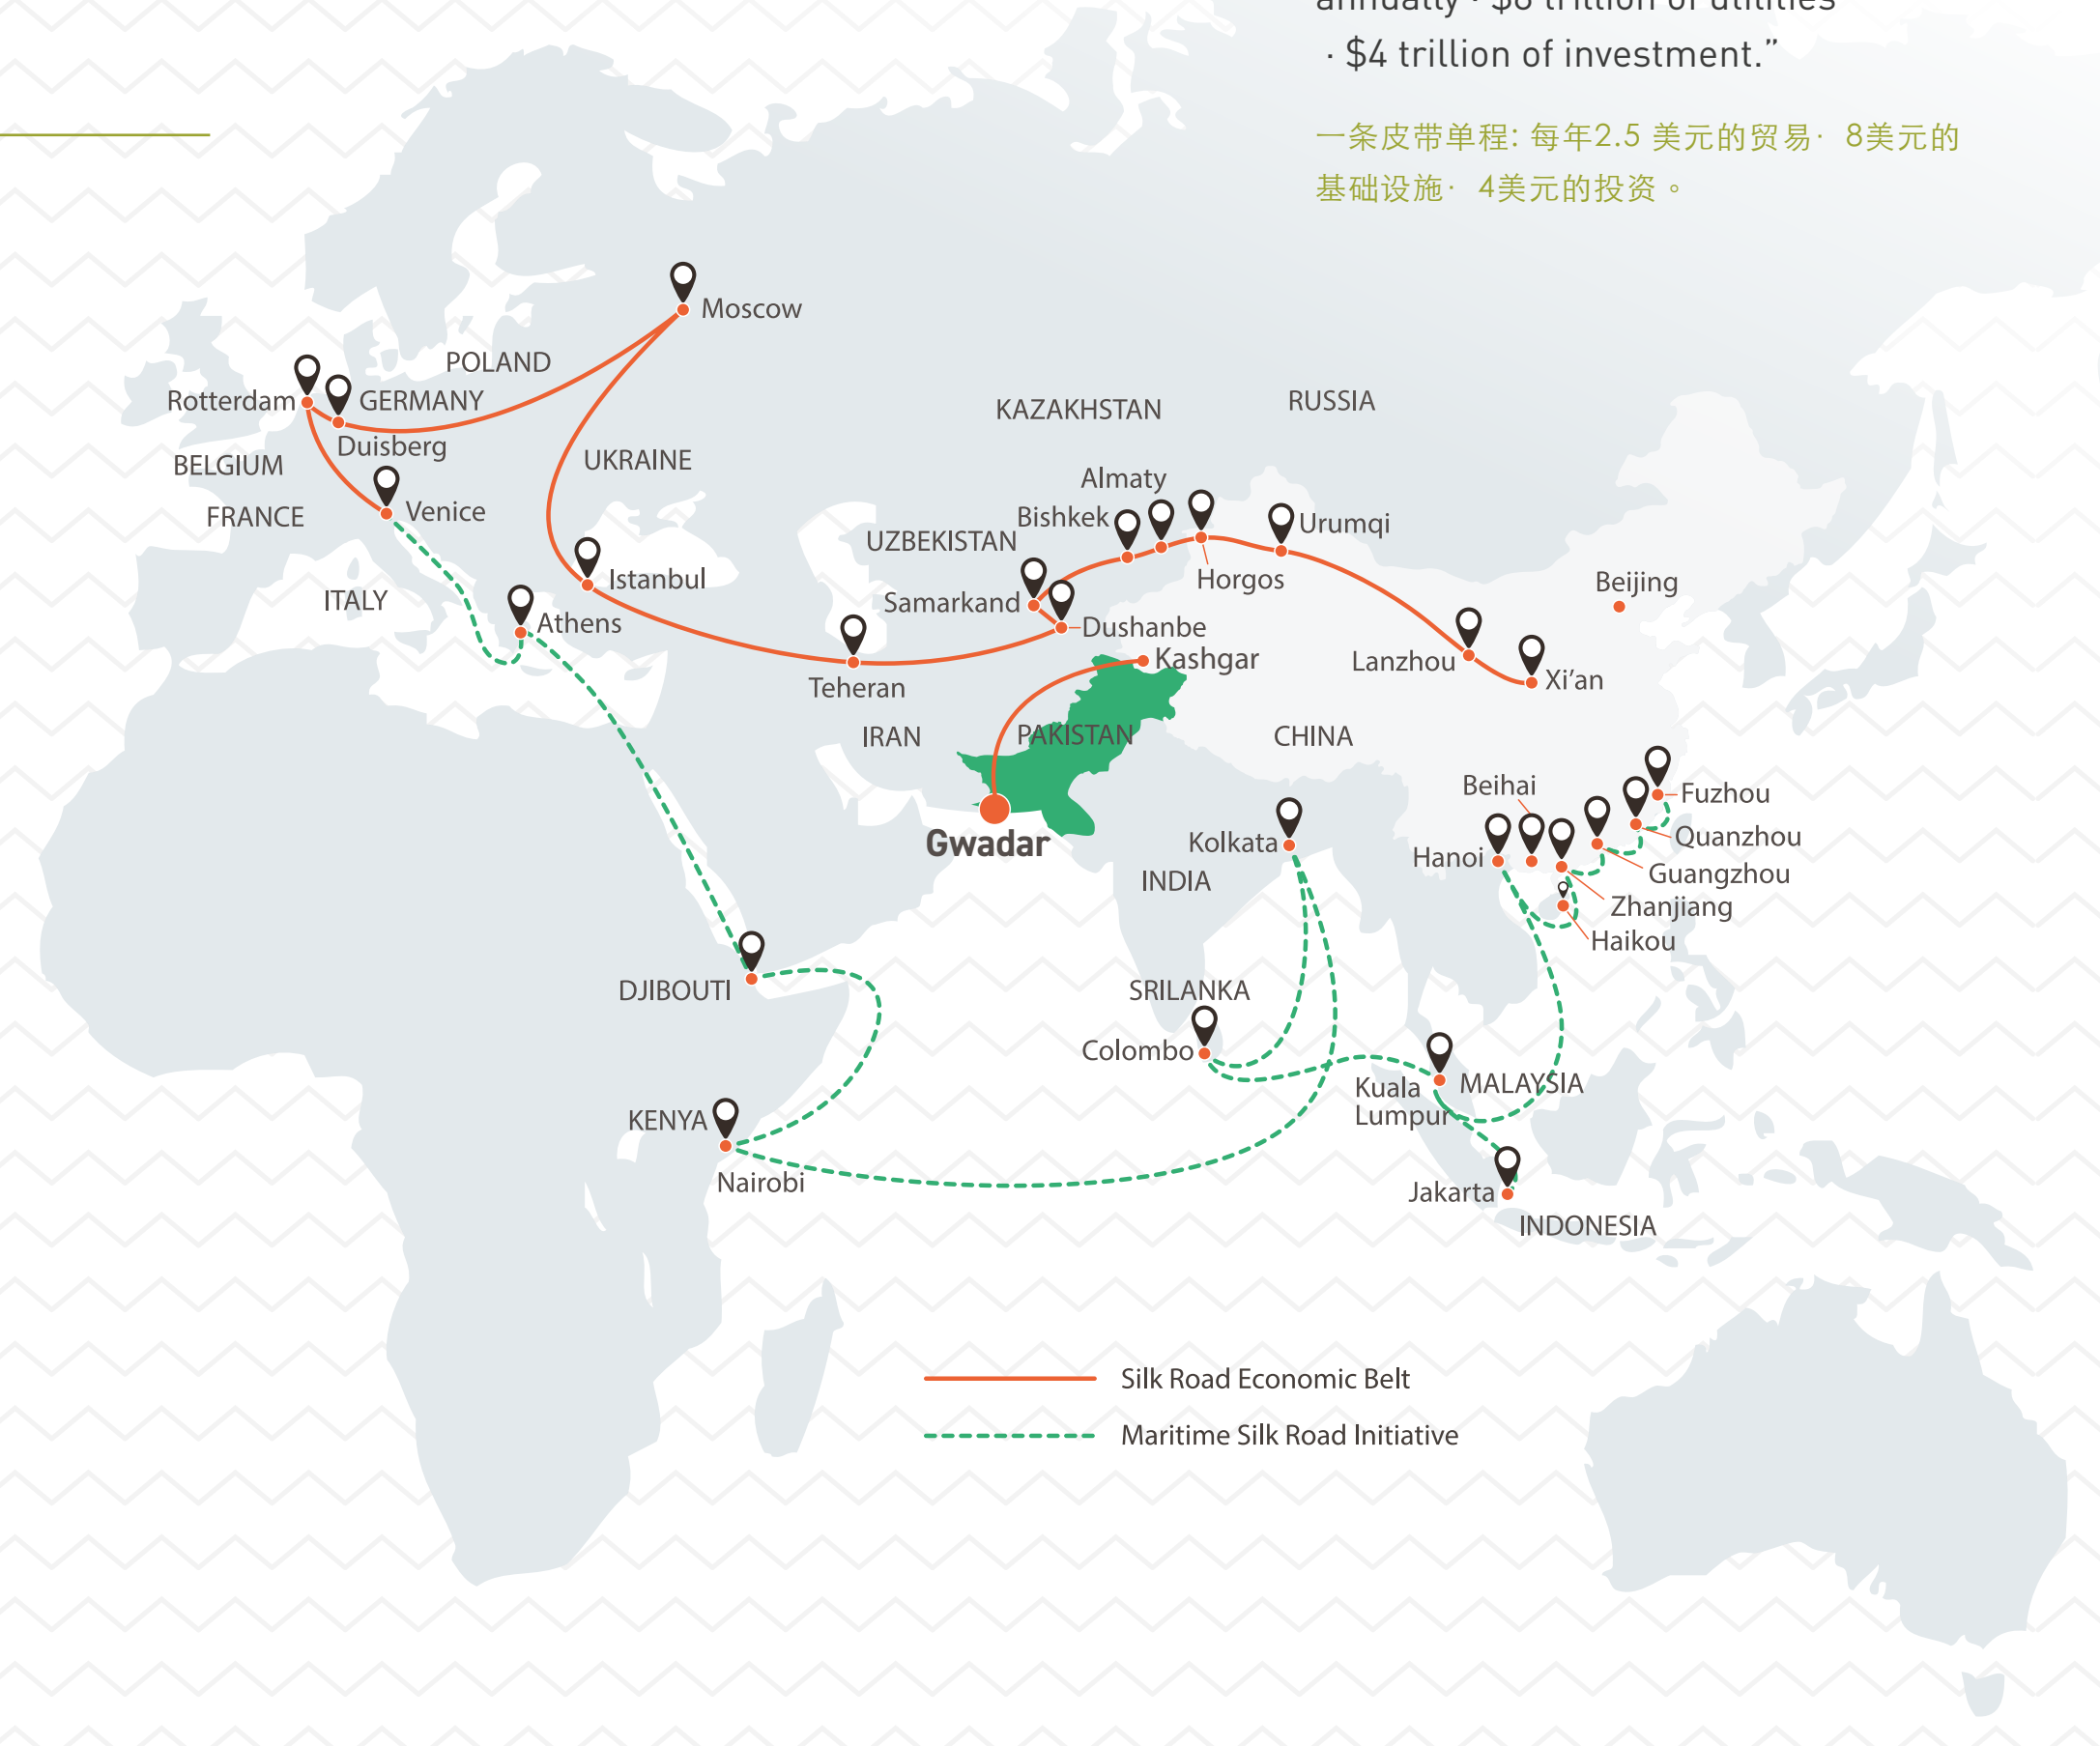

“一带一路倡议”被誉为“世纪工程”和世界上最大的基础设施项目。一带一路将带来现代化丝绸之路的全面复兴，重新连接亚欧非各大洲沿线各国。

这一令人印象深刻的伟大项目投资规模高达5万亿美元，主要用于加强横跨亚洲、中东、欧洲和非洲的52个国家的基础设施建设。通过加强亚洲、欧洲和非洲大陆之间的互联互通，“一带一路”倡议将促进中国贸易流量，长期促进区域经济增长发展，惠及所有参与者。

在2016年，发生在公用事业和电信行业等7个基础设施领域的投资并购交易规模高达5000亿美元。

旗舰项目包括:

- 460亿美元的“中巴经济走廊”，将直接造福瓜达尔，有望大大改善巴基斯坦的经济和南亚的连通性。
 - 连接中国和新加坡的3,000km 高速铁路，横跨中亚的天然气管道。
- 这条腰带和道路倡议已经进入了新西兰、英国甚至北极的国家。到 2019年, 英国将在伦敦皇家阿尔伯特码头拥有自己的亚洲商业港口，中国正在开发该港，以促进英国和中国之间的贸易。

China Pakistan Economic Corridor (CPEC)

The largest unilateral foreign direct investment from one nation into another, China Pakistan Economic Corridor (CPEC) is set to catapult Pakistan's stature as a key global trade and economic hub.

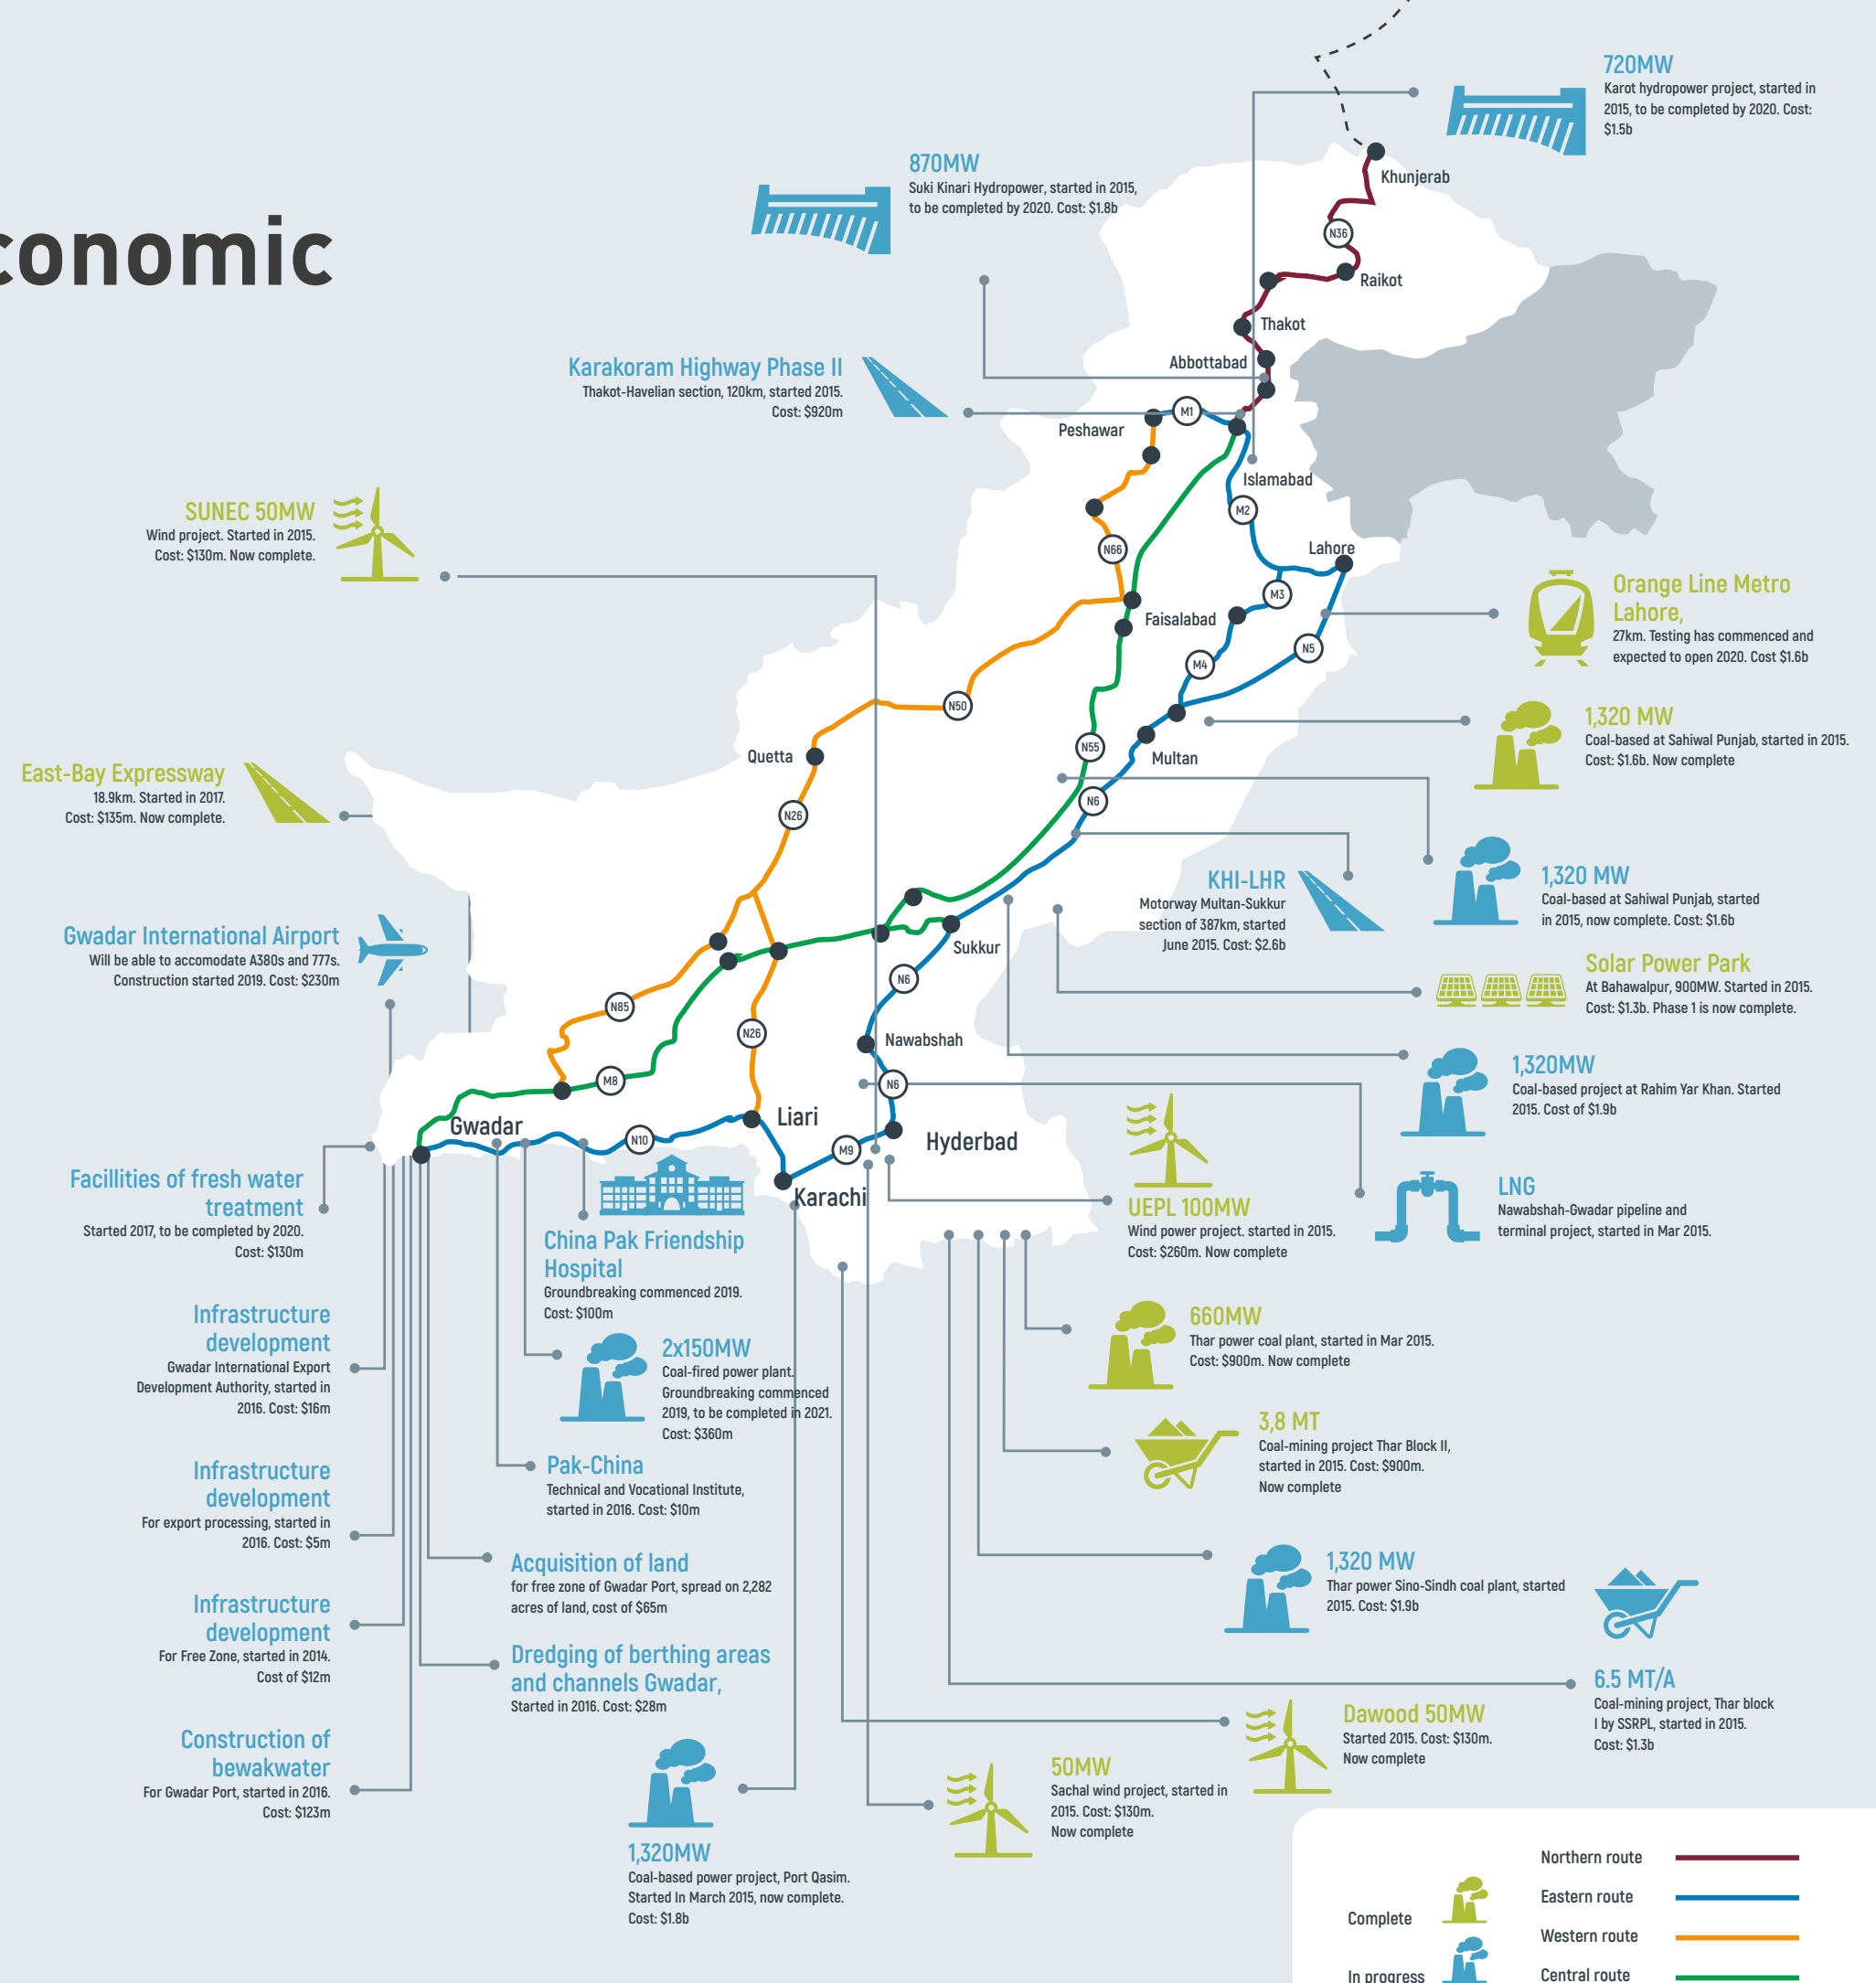

Valued at \$62 billion, CPEC includes a number of projects which aim to improve Pakistani infrastructure and to deepen the economic and political ties between China and Pakistan.

Summary:

- ✓ A 2000 mile economic corridor between Gwadar Port to China's North Western region of Xinjiang
- ✓ A 2,700 km long highway linking Kashgar to Gwadar
- ✓ Railway links for freight trains
- ✓ Oil and gas pipelines
- ✓ An optical fibre link

The economic impact of CPEC is projected to be in excess of \$200 billion. It will create over 700,000 new jobs, and add 2.5% to Pakistan's annual growth rate changing the country's destiny.

The upgrade puts Pakistan in good company. Other members of MSCI's Emerging Markets Asia Index include China, India, Indonesia, Malaysia, the Philippines, South Korea, Taiwan, and Thailand. This shift will attract foreign investment into Pakistan. The chief reason behind Pakistan's emerging status is China-funded loans and investments made under the umbrella of China-Pakistan Economic Corridor (CPEC), with Pakistan following the pattern of Argentina and Vietnam.

CPEC, as the flagship of China's Belt and Road project, helped rapidly convert Pakistan into an Asian "emerging market." The settling of the balance of payments also helped Pakistan to achieve this status. According to Finance Minister Mohammad Ishaq Dar in his budget speech on May 26, Pakistan would become an "emerging market" effective June 1 on the basis of the performance of the Karachi Stock Market (KSE100), which emerged as the most profitable market in Asia last year.

这次重要的调升使巴基斯坦得以与其他潜力国家并列。MSCI新兴市场亚洲指数的其他国家包括中国，印度，印尼，马来西亚，菲律宾，韩国，台湾和泰国。这样的转变将吸引外资进入巴基斯坦。而巴基斯坦新兴市场地位背后的主要原因正是中国巴基斯坦经济走廊(CPEC)下的中资贷款和投资，试图让巴基斯坦遵循阿根廷和越南的模式。

CPEC作为中国一带一路计划的领头羊，将巴基斯坦在平衡其国际收支后迅速的推入亚洲新兴市场之列。据财政部长穆罕默德·伊萨哈克·达尔在5月26日的预算案演说，巴基斯坦将藉由已成为亚洲最有利可图市场的卡拉奇股市(KSE100)表现，在6月1日起成为「新兴市场」国家。

Consider the comparison with India. India has established a reputation as one of the world's most dynamic and rapidly growing economies. Yet until 2008, Pakistan and India had roughly comparable per capita incomes and Pakistan is pulling close again with many experts predicting Pakistan will exceed India by 2020.

SUPPORTING LOCAL COMMUNITIES

As of January 2021 CPIC has created job opportunities for 350 people in Balochistan who are working full-time on CPIC projects.

CPIC's operations stem from the three core values of building trust, being transparent and acting with sincerity. An important aspect of this is giving back to the community that has so graciously welcomed us with open arms. In our determination to be a positive catalyst CPIC is focused on the improvement of the social well-being of all individuals and organisations associated with the work we do. We are nothing without our community, and we thank each and every citizen for assisting us in achieving all that we have.

CPIC projects have already created numerous employment opportunities for locals with the number expected to increase considerably in the near future. 100+ labourers are currently employed at the International Port City site. This number will soon rise to 350+ once the construction of China Pak Golf Estates moves from ground preparation works to the development phase.

"If we want to make this great state of Pakistan happy and prosperous, we should wholly and solely concentrate on the well-being of the people."

GWADAR SMART CITY MASTER PLAN

The Pakistan Government have released an impressive and ambitious blueprint for the long-term development of Gwadar.

Entitled “Integrated Gwadar Smart Port City Master Plan (2017-2050)” the document promises the delivery of a glorious future for this seaside corner of Western Pakistan. Among the exciting predictions are that the population of Gwadar Port will explode from around 300,000 to 2 million in the next 30 years.

It is expected the size of the city’s economy will surge from \$0.6bn to \$30bn annually. That growth will be fuelled by a rise in employment from 105,000 to 1.1 million jobs. This in turn will propel the number of households from just under 16,000 to over 250,000. Clearly, land for residential building will be at a premium due to the huge demand from the expected rush of immigrants to Gwadar.

The Master Plan envisages Gwadar becoming the main port in Western Pakistan, servicing China and the five Central Asian countries. It will be the focal point for the trade centres of Afghanistan, South Asia and the neighbouring Middle East. The port’s throughput will rise from 44m tons to nearly 200m pushing the per capita GDP from just \$2000 per year to \$15,000, nearly three times Pakistan’s current rate.

Among the Master Plan’s highlights are:

- Port development & economic free zone
- International transport links, including international airport
- Infra-structure, including major road-network, electricity & water supply
- Industrial & manufacturing developments
- Commercial developments
- Residential developments
- Utilities, including water, sewage, gas & electricity
- Food production & supply
- Facilities, including healthcare, educational, religious, sports & recreational
- Telecommunications, including high-speed internet
- Security, including storm measures
- Tourism developments
- Sustainability & ecological projects
